northern plain toward Tagliamento river, and have reached Venetian soil on the whole front. The Italians' retirement is being stemmed at a few crossings of the swollen river.

(By Associated Press.)

LONDON, Oct. 30.—Commander French of the British home forces announced today that no casualties and no damages resulted from the attempted German raid last night on the southeast counties. British machines went to engage the air raiders and landed safely.

(By Associated Press.)

LONDON, Oct. 30.—The British have driven back the Germans on a thousand yards of the Ypres front, according to Reuter's correspondent at the front.

## WAR SUMMARY.

(By Associated Press.)

From the head of the gulf of Trieste northward along the Isonzo front to beyond Tolmino and thence westward through the Carnic Alps region to the Ploechen pass, forming the eastern and northeastern boundaries of the Austro-Italian war front, the Germans and Austro-Hungarian troops are operating swiftly and strongly against the Italians in an endeavor to crush the forces of General Cadorna.

Already the Italians, according to the German official communication, are standing before the town of Udine, the former grand headquarters of the Italian army, having been driven on past Cividale. In the press westward from Gorizia the Germans have captured the town of Cormons, ten miles to the southeast of Udine, and the entire Italian line southward to the head of the Adriatic is reported to be in retreat.

**Third Wedge.**  
In addition to the wedges driven into the Italian front in the east and northeast, the Teuton allies have started a third wedge in the north through Pluecken pass, their hope evidently being to cut off the retreat of the greater portion of General Cadorna's armies moving west and southwest. The Italian commander-in-chief, however, reports that his men are checking the advance in this region. Evidently the weakness among the Italians has been entirely overcome as Cadorna says that all movements ordered by the general staff now are being carried out in regular order and that the Italians are fulfilling their duty "by keeping in check the enemy's advance into the plains."

Great Britain and France are preparing to lend immediate aid to Italy and the possibility is that already troops are being hastened across the Western Italian frontier and by way of Turin and Milan to the battle front in the east.

**Italy United.**  
As a result of the Teutonic allied offensive, internal conditions in Italy are declared to have been unified, the preponderating idea of the entire population now being to abolish party lines in order to meet the situation in the best interests of the country. Even the cabinet crisis is expected to be solved with comparatively few changes in portfolios.

On the western front in France and Belgium little fighting has taken place, except in the nature of bombardments, although on the Verdun front the Germans in an attack near Chame wood captured a portion of a French trench. Later however, they were driven out from the most of it.

**American Front.**  
On that portion of the line held by the Americans, the Americans daily are shelling the Germans, with the Germans answering their fire. Snow has fallen in the region where the Americans are entrenched.

On the Russian front the Germans in their continued evacuation have withdrawn from the entire Word peninsula, projecting into Moon sound in the Gulf of Riga.

## AMUSEMENTS

MARGARET ILLINGTON AT THE BUTLER.

Margaret Illington, the distinguished star of the speaking stage, will make her screen debut in the gripping and vivid drama, "Sacrifice," which will be the attraction at the Butler this evening.

Ever since her first appearance before the footlights Miss Illington has been one of the most distinguished and popular stars on the American stage. Her wonderful performance in "The Thief," which ran over a year in New York City, established Miss Illington as one of the country's most successful emotional actresses. Later she repeated her success in "Kindling," which was hailed by all as one of the most unusual and appealing plays of the decade, and still later Miss Illington won fresh laurels in "Within the Law." In "Sacrifice" Miss Illington plays a dual role—that of the daughter of a high official, and as a notorious dancer in a small principality of Europe. The scenes, laid as they are amid the principalities of Europe, are unusual in their beauty and the production is made in the usual thorough Lasky manner.

In addition to the feature, the Ford Educational Weekly will be shown. Tomorrow, the seven-reel picturization of George Bronson Howard's thrilling story of the underworld, "Come Through"—greatest crook picture ever screened. See it! It's a good one. Do not miss reading the story in tomorrow's Bonanza of the second number of "The Fighting Trail"—better and more exciting than ever. Greatest serial ever produced. See the picture every Friday. "The Sawdust Ring," circus drama, will be shown Friday instead of Thursday, as previously advertised.

Unofficial estimates have placed the district's offering at many millions over the maximum quota and indications are that the estimates will be borne out when complete returns are received.

## POSTAGE INCREASE.
